PLEGA

HI-LO ADJUSTABLE BEDS

RECOMMENDED BY HEALTHCARE PROFESSIONALS

The Plega Commercial Hi-Lo provides all the features of a hospital bed with the comfort of a domestic bed.

With a deluxe inner spring mattress and available in all sizes, this bed can be used in all nursing homes and care facilities.

Touch button controls electrically adjust height and elevate back and legs to different positions.

The Plega range of High Care beds with electric elevation of both the head and leg section and also a Hi-Lo function for carers, is ideal for both Nursing Homes or Home Use. These beds come in both a powder coated, steel frame finish, or a home style base. With options that include side-rails, overhead grip handles and waterproof mattress protectors the High Care beds can be easily adapted for any environment. Available in all sizes including 4'6 Double and 5' Queen.

Customers benefit from Plega's twenty years experience in engineering, design and understanding customer needs.

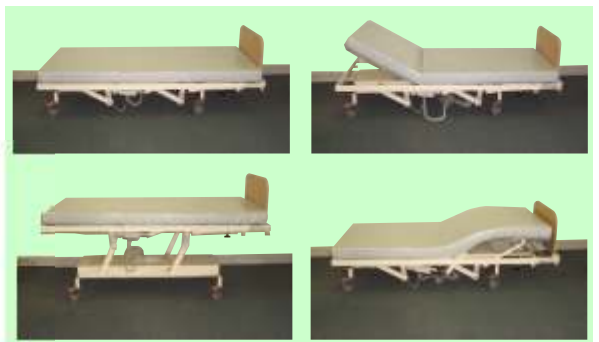

Plega has the largest network of full time, fully trained after sales service technicians in Australia with the capability to cater to any possible change of health conditions or further requirements you may experience both today and in years to come.
