

The Plega Lift and Recliner Chair is electrically operated with an optional built-in Massage Therapy Unit.

Our chairs offer maximum comfort and convenience to those suffering from arthritis, rheumatism, stroke and other mobility problems. Your budget and selection of coverings from our large range of Vinyls, Fabrics and Leathers will determine your ultimate investment.

Fingertip button controls on both the chair and massage units make it easy to find your position.

Waverley Petite

The Waverley Petite chair is designed to offer the ultimate in comfort, support and ease of operation for those who require a smaller more compact size chair. With the touch of a button you can recline to a multitude of relaxing positions, to watch T.V, read or simply sleep. With extra support in the lumbar region and leg rest, the Waverley Petite will provide the rest and rejuvenation you need. The optional 5 position massage unit throughout the chair is an excellent choice for those who want the very best in relaxation. Raising you effortlessly to a standing position gives you the independence you deserve. Available in a wide range of designer fabrics of your choice, the Waverley Petite is the premium choice of Australian Made Electric Lift Chairs.
